## SUMMARY

Computer Science graduate from Visayas State University with hands-on experience in fullstack development, UI/UX design, and web-based systems using Vue.js, Laravel, and JavaScript. Passionate about building user-centered applications and clean interfaces. Strong team player with solid leadership and communication skills, seeking a role to apply both technical and design expertise to innovative software solutions.

## SKILLS

Vue.js, Laravel, JavaScript, Python, Machine Learning, MySQL, HTML/CSS, Tailwind CSS, RESTful APIs, Figma, Git/GitHub, C#

## EDUCATION

<b>Visayas State University Main Campus</b> Bachelor of Science in Computer Science	<b>Sep 2021 - Jul 2025</b> Baybay, Leyte, PH
<b>Ormoc City Senior High School</b> Science, Technology, Engineering, and Mathematics Strand	<b>Aug 2015 - Aug 2019</b> Ormoc, Leyte, PH

## EXPERIENCE

<b>Intern Fullstack Developer</b> Wela School Systems	<b>Jun 2024 - Aug 2024</b>
--	----------------------------

- Enabled dynamic certificate generation by creating a **Frappe Print Format** with editable fields, improving graduation processing using **HTML/CSS** and **JavaScript**.
- Improved reporting efficiency for MV Gallego Colleges and Chime Learning School by building custom script reports using **Python** and **Jinja** templates tailored to requirements.
- Streamlined academic performance tracking through report card formats aligned with policies, leveraging **Frappe's templating engine** and client-side scripting using **JavaScript**.
- Adapted core systems by customizing **Frappe DocTypes** and integrating server-side logic with **Python**, ensuring compatibility with unique school workflows and data structures.
- Accelerated data access and system responsiveness through optimized **Python** scripts within the **Frappe Framework** for seamless querying and retrieval.
- Maintained code integrity and streamlined collaboration using **Git** and **GitHub** for version control and team-based deployment workflows.
- Empowered school staff with clear, concise technical documentation using **Markdown** and **HTML**, reducing training overhead and improving feature adoption.

## PROJECTS

**Pageant Scoring System** 📄 - Built a custom scoring platform for Visayas State University pageants, achieving a 4.55/5 system evaluation rating, using **Vue.js** and **Laravel**.

**Tally Board Application** 📄 - Created a refined mockup that simplifies tally board operations, functions, and CRUD workflows, designed using **Figma** and **Photoshop**.

**Simple Inventory Manager** 📄 - Developed a lightweight web app demonstrating core inventory tracking features, built with **HTML/CSS** and **JavaScript**, ideal for learning or demo purposes.

## ACHIEVEMENTS AND AWARDS

- **Outstanding Computer Science Trainee - Fullstack Developer** awardee during the Department of Computer Science Orientation at Visayas State University, Baybay City, Leyte.
